Airborn  
Regulators

CE approved

# FEATURES:

## Regulator

- Cap is made from hard wearing stainless steel
- Main body made from anodised aluminium
- Fully serviceable with British made parts available by next day
- High flow rate - compatible with air hungry electronic guns and Inferno markers
- Available for 3000 or 4,500 PSI systems
- Safety gas release channels incorporated in body to prevent cylinder "screw-off"

## Filtered fill nipple

- Ensures no contamination of your air system
- Replaceable filter
- 'O' ring free non-return valve, eliminates the symptoms of flash filling

- Includes fill nipple cap to prevent dirt and dust entering the regulator
